# Active for climate protection

At Papp Logistics, corporate responsibility and climate protection have been part of our corporate culture for years. We endeavour to avoid or reduce emissions in our own operations. Where this is not yet possible, we offset emissions.

Through our partnership with Aktion Zukunft+, we have offset a total of 198 tons of CO<sub>2</sub> from our business trips in 2023, while at the same time promoting regional and global climate protection.

As part of our partnership with Aktion Zukunft+, we are supporting forest conversion in Forstenrieder Park and hummus cultivation. Globally, the expansion of PV systems in India is being promoted with a focus on renewable energies.
